

Trainer, Ocenco M-20.2T EEBD

Material no.: 1008021

Emergency Escape Breathing Device (EEBD) training model of Ocenco M-20.2. Enables users of the Ocenco M-20.2 EEBD to carry out donning training which, as with all safety appliances, is very important to optimize chances of survival in situations where the EEBD's are to be used.

The Ocenco M-20.2 EEBD are a one-time usage EEBD. When activated it can be used one time only and it the unit has to be disposed. This makes a training unit even more important.
