

Stretcher, head immobilizer, HP version, Blue

Material no.: 1008920

The Spencer head immobilizer is realized with moulded antitoxic PVC and poliurethane which will not absorb blood or any other body fluids. If added to a spinal board with its Velcro straps and to a cervical collar allows to move a patient even in very ruined areas, then you can keep it on the patient in X-Ray chamber thanks to its radiolucent materials. Ideal for adult and child.

Complete Spencer Super, HP version, includes immobilizer base, removable head pad, two foam blocks and head straps.
