

Turbo Nozzle, AWG Type 2130, Storz C Adaptor, Aluminium, Non-MED

Material no.: 1011224

AWG Turbo nozzles meet the standard DIN EN 15182 for branchpipes. The flow rates can be selected by the adjusting sleeve, and opening and closing by means of the u-shaped handle. A special feature is the extinguishing power, due to optimal droplet size also at the full range of the 0° to 120° adjustable water-filled spray stream. The AWG nozzles have two pointers, a good aid to feel the selected flow rate as well as the type of the stream. With Flash-Over position. Inlet also swivelling under pressure. AWG Turbo nozzles are high-voltage approved according to DIN VDE 0132.

Specifications:

- Flow rate: 40/80/130 l/min
- Throw distance, full jet: 15-22-27 m
- Throw distance, spray jet: 5-6-7 m
- Complete with Storz C aluminium adaptor
- Dimension (LxWxH): 265 x 100 x 230 mm
- Weight: 1.6 kg
