

Cylinder, Scott Safety, Composite, 6,8 Liter/300 Bar, Full

Material no.: 1045689

6,8 liter 300 bar carbon fiber fully wrapped aluminium composite cylinder, CE specification, cylinder design life 15 years, complete with cylinder valve incorporating safety locking handwheel. 1860 liter free air capacity providing total duration of 46 minutes.

Water Capacity : 6,8 liter

Charging Pressure : 300 bar

Material : Composite, alloy / carbon fiber

Thread : Cylindrical R 5/8"

Dimensions : L 530 x diameter 157 mm

Weight filled : 7,3 kg

According to : CE specification in accordance with PED
