

Turbo Nozzle, AWG Type 2400 Gold, Storz C Adaptor, MED approved

Material no.: 1062916

The high-quality anodised surface of the Turbo nozzle GOLD is even more corrosion-resistant thanks to a special surface finish. In the salt spray test according to EN ISO 9227-NSS it is far more resistant than conventional coating.

This nozzle with the new anodised finish is a lightweight alternative to brass or gunmetal. Control lever and handle made of impact-resistant polyamide. The reliable features of the Turbo nozzles remain the same for the type Turbo nozzle GOLD: Open and close with a u-shaped handle, adjustment of the stream from full jet (0°), over Flash-Over jet (45°) to spray jet (120°) by turning the head of the nozzle.

A good aid to feel the selected stream even at poor visibility are the pointers. AWG Turbo nozzles are high-voltage approved according to DIN VDE 0132.

Specifications:

- Flow rate: 130/235/400 L/Min
- Throw distance, full jet: 26-32-40 m
- Throw distance, spray jet: 11-14-16 m
- Complete with Storz C brass adaptor
- Dimension (LxWxH): 300 x 112 x 245 mm
- Weight: 2.4 kg
- Approval: MED approved
