

## Lifebuoy, CAN-SB, 4.0 kg

---

Material no.: 1069071

O ring life buoy manufactured in high density polythene filled with poliurethane closed cell foam, reflecting tape and rope.

Maximum installation height: 60 meters.

Type: Elba

Materials: high density polyethylene RIGIDEX HD5502S

Grabline made with a braid of high density polyethylene Ø 10 mm

Outer diameter:  $736 \pm 2$  %

Inner diameter:  $436 \pm 2$  %

Elliptical section: major axis  $150 \pm 7$  mm

minor axis  $100 \pm 7$  mm

Thickness: 2 mm

Weight:  $4500 \pm 200$  g
