

VIKING Liferaft, Open Non-Reversible, 4 pers. – 4IBA

Material no.: L004IBA0

Open non-reversible liferaft. Packed in a rigid cylindrical FRP container or a fabric valise.

The open non-reversible liferaft is intended for occupants likely to be exposed to bad weather conditions only for a short period of time before being located and picked up.

The open non-reversible liferaft is released from its cradle and thrown overboard, or slides automatically when released. Once waterborne the liferaft inflates on a hard pull of the painter line and is then ready for boarding.

VIKINGs Inflatable Buoyant Apparatus are approved by USCG according to Code of Federal Regulations (CFR).

VIKING open non-reversible liferaft type has a high durability with an expected lifespan of 15-20 years.
