

VIKING Liferaft, davit launchable (self-righting), 25 pers. – 25DKFS

Material no.: L025DFS1

VIKING Davit launched self-righting liferaft provides safe and effective means of dry-shod evacuation and is approved according to SOLAS LSA-code, EC directive 96/98/EC for use onboard passenger vessels.

VIKING 25DKFS+ liferaft.

Davit launched self-righting type. Stowed in rigid fibreglass container as per attached drawing and approved by DNV in accordance with SOLAS/MED requirements and the relevant flag state approval. Will be delivered complete with emergency pack SOLAS A or B. The 25 persons davit launched self-righting liferaft is mainly used on commercial vessels, passenger vessels and offshore installations. The VIKING davit launched self-righting liferaft is to be connected to the davit and then inflated at deck level, thus enabling the passengers to board the liferaft from deck. The liferaft is then launched to the water.

VIKING davit launched self-righting liferaft type has a high durability with an expected lifespan of 15-20years.

Is available with either 12 months service interval or 30 months extended service interval.
