

Lifejacket, YouSafe™ Elite (PV9340) SOLAS - Plastic

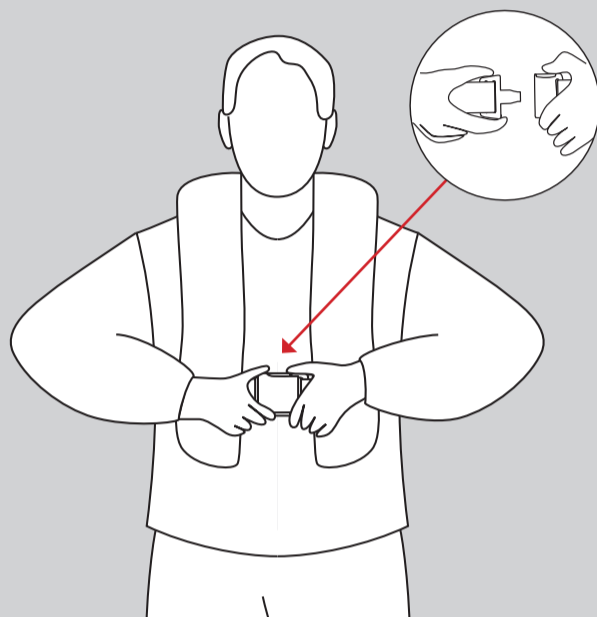

1

Don the lifejacket like you would with a jacket

2

Close the front buckle

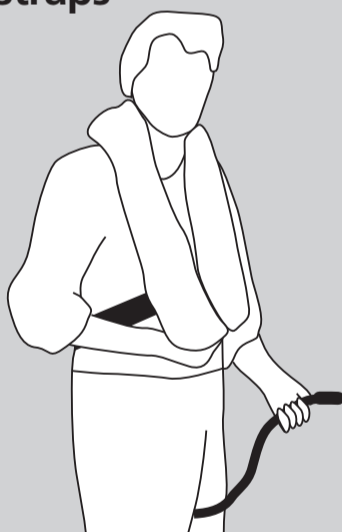

3

Adjust the waist strap

4

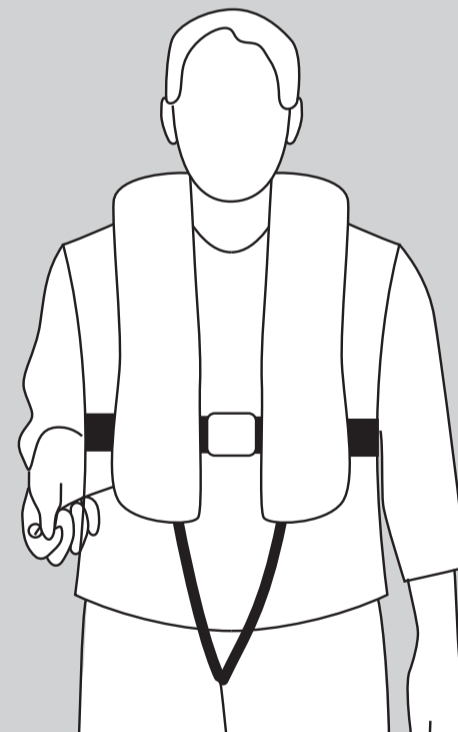

Fasten the snap hooks and adjust the crutch straps

5

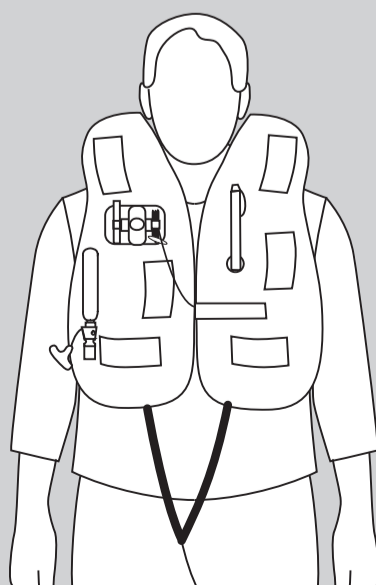

The lifejacket is automatically inflated when immersed in water.

It can also be manually inflated by a strong pull of the release line protruding from the cover

6

The inflated lifejacket

7

The light can be activated/deactivated by pressing the switch on the front of the light
